

Editor's Comment:

I have carefully reviewed this article. Here are comments which need to be improved.

1. Proper numbering and title should be required for each main title/sr no.
2. Need to add the conclusion and scope of this research.
3. need to add a table for the desirable properties of basalt fiber cement
4. add an image or photograph of the material .

After fulfillment of these comments, the article can be accepted without further review.
