

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_125533
Title of the Manuscript:	Studies on Organoleptic Evaluation of Aonla (<i>Emblica officinalis</i> G.) Squash during storage
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I appreciate this manuscript because it bridges the gap between agricultural practices and food processing, improving the process of converting fruits into consumable products. This manuscript contributes to the scientific community as it provides insights into the post-harvesting of aonla and ways of determining the nutritional value of converting that fruit into a consumer-ready product. Please elaborate more on the study, the economic and market relevance of the research, linking the fruit's qualities with its market potential, such as how improving the processing of aonla can make it more marketable and reduce postharvest losses, aligning with consumer demand for nutritious, medicinally beneficial products.	
Is the title of the article suitable? (If not please suggest an alternative title)		
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	I advised adding some points in the section, such as the economic and market relevance of the study.	
Are subsections and structure of the manuscript appropriate?	The structure is appropriate, and the subsections are explained for easy understanding by the audience.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript seems scientific and technically sound, providing information that can be used for processing and evaluating aonla. It is supported by statistical analysis and sensory evaluation. The experimental design uses analytical techniques such as ANOVA to interpret the data.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	I noticed that the study includes references from 2009, 2012, and 2013. I advise that the researcher use more recent literature/studies as references. Some sources appear out of date, and it is advisable to include articles from the last 5 to 10 years to support the claims and statements made.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Yes, I just noticed a few spelling errors.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
