Journal Name:	<a href="#">Journal of Advances in Microbiology</a>
Manuscript Number:	Ms_JAMB_128540
Title of the Manuscript:	Antibiotic-Resistant Bacteria in Agricultural Soil Appraised Against Non-Agricultural Soil: Case in One of the Most Agriculturally-Active Settings in West Cameroon
Type of the Article	Original Research Article

**PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>		
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>No</b> Based on the content, I propose the following title: Comparative study of the abundance of microorganisms isolated from agricultural soil, non-agricultural soil and their resistance to antibiotics.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract should be revised to clearly state the purpose of the survey. The conclusion of the abstract is too long. It should be reduced to 2 lines	
<b>Is the manuscript scientifically, correct? Please write here.</b>	yes	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	Reference 29, 6 and others need to be reviewed. et al should be replaced with the correct names.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	yes	
<b><u>Optional/General</u> comments</b>	That he review the way of writing taking into account the work done  The study is very interesting but he must clarify what he called intensive agriculture. Do they use herbicides or pesticides? I want to understand why this work was done. What happened so that these microorganisms became resistant to antimicrobials?
