

Review Form 3

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	Ms_JAERI_128882
Title of the Manuscript:	Resistance degree of two hot pepper hybrids to pests in organic farming
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The research offers valuable insights into the resilience of hot pepper hybrids against pests, providing crucial information for the development of sustainable and eco-friendly agricultural practices. This research contributes significantly to the scientific community by addressing the growing need for organic farming solutions that minimize environmental impact while ensuring crop protection. By exploring the pest resistance of hot pepper hybrids, this study paves the way for future research into crop improvement and integrated pest management strategies.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of the article is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is well written and comprehensive enough.	
Is the manuscript scientifically, correct? Please write here.	Yes, the manuscript is scientifically correct and contributes to the pool of knowledge about resistance of pepper hybrids to pest that may result from use of organic manures	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent enough	
Is the language/English quality of the article suitable for scholarly communications?	Yes, the article language is suitable for scholarly communication	
<u>Optional/General</u> comments	Generally, I wish to commend the author for carrying out such an insightful research on resistance of pepper hybrids to pest that may arise from use of organic manures as this is a great eye opener in the attempt to shift from the use of chemical fertilizers to organic sources	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Are there ethical issues in this manuscript?</u>	<u><i>(If yes, Kindly please write down the ethical issues here in details)</i></u>
