Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript refers the relation between Ventricular tachycardia and Hemochromatosis, which was a new concept. But I recommend to authors kindly add more data in INTRODUCTION part regarding both diseases and their relation (if any) by the help of Literature.	
Is the title of the article suitable? (If not please suggest an alternative title)	NO, I will suggest "A Case Report on Ventricular tachycardia on a young patient with Hemochromatosis".	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	NO, I will recommend to the authors to add more comprehensive Scientific data	
Is the manuscript scientifically, correct? Please write here.	It was a Case Report, I found that it was ok for the scientific forum. Still need some more data regarding both diseases, their relationship. A large no of cases can ensure the proper relationship between both diseases. Authors can plan for future study with more no of subjects/patients and scientific evidence.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	I also suggest to the authors to add some more fresh references. And also, kindly add proper citation in all the section of the manuscript.	
Is the language/English quality of the article suitable for scholarly communications?	I will suggest that kindly check the grammar, spelling and citation part before final revision.	
<u>Optional/General</u> comments	In INTRODUCTION part, there was no citations or references. Add more scientific data with proper citations.
