PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Type 1 Diabetes (T1D) is a chronic autoimmune disease. Studies suggest that some apoptosis ensues as the beta cells engage in complex interactions with the immune system. Teplizumab treatment is the promising examples of retaining beta cell function and delaying the diagnosis of T1D. Research is needed to develop better treatment protocols for the identification of the most suitable recipient population for this therapy. The scientific background of this article is very sound.	
Is the title of the article suitable? (If not please suggest an alternative title)	Please revise the title. Suggested title is- Advanced Treatment of Type 1 Diabetes with Teplizumab's: Mechanism and Clinical Efficacy.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Please write your rationale or objective to write this article?	
Is the manuscript scientifically, correct? Please write here.	Yes. It is time demanding and teplizumab in T1D treatment has the promising reflection in dealing with autoimmune diseases. Further research is needed to develop better treatment protocols.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Fair. Just follow the journal's guideline.	
Is the language/English quality of the article suitable for scholarly communications?	Fair	
Optional/General comments	Minor revision is needed.
