Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_127469
Title of the Manuscript:	Studies on Correlation and Path Coefficient Analysis for Yield and Yield Associated Traits in Wheat ( <i>Triticum aestivum</i> L.) Genotypes
Type of the Article	

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This study provides valuable knowledge for grain yield and features related to it and the genotypic and phenotypic path coefficient analysis among grain yield and its components. It equally brings out breeding strategies that can improve wheat yield and its overall productivity.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article is comprehensive	
Are subsections and structure of the manuscript appropriate?	Not really appropriate. The subsections need to be restructured. For example: Materials and methods 3.1 Experimental Site to 3.4 Experimental details  Tables not titled and wrongly presented Spacing too	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The research is scientifically robust and technically sound given that it explored the different methodological methods relative to those of other related research studies. Particularly it brings out the different statistical equations used for data analysis.  The Introduction part (1 <sup>st</sup> paragraph) has no citations. Some sentences are not clear and some do not have full stops at the end.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. =	The references are sufficient and recent but I think the author should follow the method required by the publisher.
