

Editor's Comment:

The revised version of the below mentioned article has been significantly improved. The Authors have included in this version of the manuscript most of Reviewer's suggestions. But before acceptance for publishing some minor revisions suggested below should be made:

In Results and Discussion section the sentence: "Among the major nutrients such as N, P and K, the amount of P was much lower in all the treatments and was comparatively higher in T3 of 3.24 g/kg" should be corrected as follows: "Among the major nutrients such as N, P and K, the amount of P was much lower in all the treatments and was comparatively higher in T3 of 3.24 g/kg"

In Results and Discussion section the statistical significance of differences of results between particular groups should be presented in form of p values.

In table 1 the contents of two last rows is not clear. The statistical significance of presented results in this table should be presented in form of p values.

In reference: "Rekha, G.S., Kaleena, P.K., Elumalai, D., Srikumaran, M.P., Maheswari, V.N. (2018). Effects of vermicompost and plant growth enhancers on the exo-morphological features of *Capsicum annum* L. Hepper. *International Journal of Recycling of Organic Waste in Agriculture*, 7. doi: 10.1007/s40093-017-0191-5." the numbers of first and last page (83-88) are lacking.
