Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Prompt identification and management of hyperthyroidism in pregnant woman is essential, as uncontrolled thyrotoxicosis significantly increases the risk of maternal and fetal complications. Fetal prognosis may be affected by the transplacental passage of maternal thyroid stimulating antibodies or antithyroid agents, both of which may disrupt fetal thyroid function. Birth defects have been reported in association with the use of antithyroid drugs during early pregnancy
