Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The epidemiology of scrub typhus is on a rising trend across the south-east Asian countries. The incidence of mite-borne diseases is growing in the developing countries like India, Bangladesh, Nepal, Pakistan, and Sri Lanka. Hence, the awareness of the general public regarding these diseases must be promoted to tackle the forthcoming global problem.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of this manuscript is acceptable, as the research question seems clear from the title itself.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the review article is concisely written.	
Is the manuscript scientifically, correct? Please write here.	The manuscript provides a clear overview of the mite-borne diseases.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are recent and relevant to the topic of interest.	
Is the language/English quality of the article suitable for scholarly communications?	The language quality is suitable for scholarly communications.	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
