Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	What they have concluded can only be concluded in a clinical trial. In case of metastatic disease, surgery can be the first option, based on the clinical scenario. Some patients who undergo surgery first may do well and this has been written in guidelines and textbooks.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable for a clinical trial, not a case report.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.		
Is the manuscript scientifically, correct? Please write here.	It is correct. However, there are some irrelevant parts, such as mentioning the different chemotherapy protocols for different scenarios.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Is the language/English quality of the article suitable for scholarly communications?	The whole manuscript needs English proofreading and rephrasing.	
<u>Optional/General</u> comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
