**PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript provides a comprehensive analysis of the growth dynamics of poultry production in India and Karnataka. Its focus on egg and meat production during the 2008–2023 period offers critical insights into the poultry industry's contribution to the agricultural economy, nutrition security, and rural livelihoods. The study also presents a detailed evaluation of growth trends, variability, and stability indices, emphasizing the role of government initiatives and technological advancements. These findings are invaluable for policymakers, researchers, and stakeholders aiming to enhance productivity and manage sector challenges.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The current title, "Growth Dynamics of Poultry Products in India and Karnataka: A Focus on Egg and Meat Production," aptly reflects the manuscript's scope. No alternative is required as it is concise, descriptive, and informative.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is comprehensive and highlights the study's primary outcomes, methodology, and significance effectively. However, it could further benefit from specifying the practical implications of the findings for policymakers and industry stakeholders.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The manuscript is scientifically robust and technically sound. It employs credible methodologies, including the calculation of CAGR and CDVI, to measure growth trends and variability. The results are systematically analyzed, with clear and logical discussions that align with the stated objectives.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The references are adequate, relevant, and recent (spanning 2023–2024). They encompass peer-reviewed journals and credible sources, effectively supporting the study's analysis. Adding a few more references related to climate adaptation in poultry production could enhance the manuscript's breadth.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The manuscript's language is scholarly and suitable for academic communication. There are minor grammatical inconsistencies and typographical errors (e.g., "andhra Pradesh" should be "Andhra Pradesh") that should be rectified.	
<b>Optional/General</b> comments	<ol style="list-style-type: none"> <li>Including a section on policy recommendations to address variability in meat production could strengthen the manuscript.</li> <li>Additional graphical representations highlighting comparative year-on-year growth would make the data presentation more engaging.</li> <li>A brief discussion on environmental sustainability practices in the poultry sector could broaden the study's relevance.</li> </ol>
