

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_128535
Title of the Manuscript:	Bio-stimulants Humid Priming: A Technology for improving Seed Vigour of Annual Moringa cv. PKM 1
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study's application of biostimulants through Humid Priming improved the strength of annual Moringa seeds, which I found appealing. Moringa is especially beneficial nutritionally and medicinally.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Delete this paragraph The humid priming technique involves soaking seeds in a loosely tied cloth bag for a predetermined duration, then placing the bags in a closed container on an elevated platform to provide dark, humid conditions that facilitate the invigoration process. Seeds are soaked for 12 hours, exposed to dark, humid conditions for another 12 hours, and then shade dried to the original moisture content for proper handling.	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	It is best to use current references from 2020–2025, such as the following: Ch. V. Mashamaite , M. Ndivhuwo Ramatsitsi , Alen Manyevere (2024). Moringa oleifera Lam.: A versatile climate-smart plant for nutritional security and therapeutic usage in semi-arid regions. Journal of Agriculture and Food Research 16 (2024) 101217 and Carla Trigo, C.; M. L. Castelló , M. D. Ortolá , F. J.García-Mares and M. D. Soriano (2021). Moringa oleifera: An Unknown Crop in Developed Countries with Great Potential for Industry and Adapted to Climate Change. Foods 2021, 10, 31. https://dx.doi.org/10.3390/foods10010031	

Comment [s1]: This paragraph is more appropriate for the introduction than here.

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
