

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_127505
Title of the Manuscript:	TACKLING LIP HEMANGIOMA IN THE ELDERLY WITH POLIDOCANOL SCLEROTHERAPY – A CASE REPORT AND REVIEW.
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> This is a rare and unique case report. Hemangiomas, especially in adults and of the lip are extremely uncommon. Treatment options usually comprise local creams, oral Propranolol, laser, surgery or local sclerotherapy. This case report is of a 64-year-old female with lip hemangioma treated with 3 sessions of sclerotherapy using 2% Polidocanol which has several advantages such as – anesthetic properties, superior efficacy and lower risk of allergy compared to other sclerosing agents. 	
Is the title of the article suitable? (If not please suggest an alternative title)	It is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The article is scientifically sound. The case report highlights a rare case of Lip hemangioma in the geriatric population and its management with Polidocanol, a sclerosing agent used to treat varicose veins and hemangiomas and topically as an anesthetic in skin conditions like eczema.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments	Yes	
Is the language/English quality of the article suitable for scholarly communications?	[Case Report section: 3 rd sentence: the word prosthetic is misspelt]	
Optional/General comments
