Title of the Manuscript:	Exploring the Power of Intrinsic Motivation for Salespeople: The Case of Bangladesh Pharmaceuticals.
Type of the Article	

#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	The paper is based on assessing the impacts of encouraging the sales people in the field of pharmaceutical sector. I think the research on boosting the sentiment of sales persons for their efficient performance is required. So, I feel this study is trying to fill this gap.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Its' fine.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	Directly toggling to objectives of the research is fine, but it would've been smoother if it's started with the background of the study in at least one sentence.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	I find it quite unusual with the statement of problem section and way of presenting research objectives. I think the author needs to rewrite them in scientific method.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	There are several references which are not from scientific articles, some of them lacks DOI, need to cite more precise scientific research articles than ordinary articles. And, the reference section is arranged in very unkempt way. Please manage.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yeah, its clean.	
<b>Optional/General</b> comments	Please, arrange the sections and sub-sections of the article scientifically. Also, find and include more research articles with proper DOI and cite them.
