	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The paper is relevant to the Journal since it tries to present a topic related to teachers' community. Nevertheless, the whole paper requires some revisions which are expected to be taken care of all through the paper before acceptance. The comments below will help the author(s) shape their study for the possible publication in the Journal. The problematic parts are specifically determined in the manuscript for the authors' meticulous consideration.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, but a slight revision is suggested: Teachers' Motivation toward Teaching and Its Relationship to Their Classroom Practices: A Self-Determination Analysis on Public Secondary School Teachers in Ulanga Tanzania	

Review Form 3

Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No, the abstract needs revision as some information related to the participants, design, instruments, and procedure is required.	
Is the manuscript scientifically, correct? Please write here.	It is based on a theory but it needs complete revision considering the grammar, paragraphing, coherence of the information, and fluency.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes, but the format they are presented in should be revised both in-text and reference list at the end of the manuscript.	

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	The quality of the English language used is poor and it needs serious revision in the manuscript.	
<u>Optional/General</u> comments	All the mentioned parts in the manuscript need to be revised. 1. The ‘Abstract’ needs revision. 2. The logical order of presenting the materials in the ‘introduction’ needs to be modified to express ‘the statement of the problem’ and ‘the significance and justification of the study’ more clearly. 3. The information is presented haphazardly in the ‘introduction’ and ‘literature review’. It needs to be organized. 4. The justification for using the instruments of the study must be presented in addition to their reliability and validity in the present study. 5. The design, instruments, and participants should be explained in details. 6. The ‘procedure’ part must be elaborated. 7. The statistical procedure needs revision as mentioned in the paper. 8. The ‘discussion’ and ‘conclusion’ parts should be reconsidered and amended. Discussion needs more recent and relevant studies to be cited. The overall reasoning in this part needs improvement. 9. It is suggested to add implications of the findings and suggestions to the manuscript. General Revisions: 10. There are several grammatical problems in the manuscript which need to be rectified. 11. The Journal format should be considered while revising the paper.
