Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_128955
Title of the Manuscript:	Influence of different levels of sulphur and phosphorus on growth and productivity of Mustard (<i>Brassica juncea</i> L.)
Type of the Article	Research Articles

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides significant insights into optimizing nutrient management strategies for Indian mustard, an important oilseed crop in India. The findings show the synergistic effects of phosphorus and sulphur in significantly improving growth and yield attributes, offering practical recommendations for sustainable and profitable mustard cultivation. These results help to advance agronomic practices, assure food security, and address nutrient management challenges in oilseed production systems.
