#### PART1:Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This article is important as it highlights the significant role of integrated nutrient management (INM) in improving the growth, yield and sustainability of chickpea cultivation under irrigated conditions. This study provides a sustainable and efficient nutrient management approach for increasing crop yield while promoting soil health, which is critical for addressing food security and environmental sustainability challenges in semi-arid regions like Haryana, India.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title seems perfect.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is comprehensive and well-structured. However, it is dense with technical details, which might cause disinterest to readers who are unfamiliar with the subject. To enhance clarity and conciseness, focus on the most critical findings while minimizing numerical data. This will make it more accessible information.	
<b>Is the manuscript scientifically correct? Please write here.</b>	yes	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	those sufficient	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	yes, it's good
