

Review Form 3

Journal Name:	Journal of Geography, Environment and Earth Science International
Manuscript Number:	Ms_JGEESI_129423
Title of the Manuscript:	Dynamics of Communicable and non-communicable Health Shocks in the Campo Ma'an National Park: Implications on Natural Resources Dependent Livelihoods
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript is a vital contribution to know about the complex interactions between health shocks and natural resource-dependent livelihoods. It addresses a critical gap by comparatively analyzing the impacts of communicable and non-communicable diseases in a vulnerable low- and middle-income region of the world, offering insights into socio-demographic, ecological, and economic determinants. The findings are very crucial for policymakers and researchers seeking to implement resilient livelihood strategies and health interventions, particularly in areas experiencing biodiversity loss and resource dependency. Additionally, the study emphasizes the importance of One Health approach that will link human, environmental and animal health.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, but slight moderation still required viz: Key informant interview (n= 6), expert interview (n= 4) and a survey of natural resources dependent household (n=200) were conducted to generated relevant data in the Campo Ma'an landscape. Briefly add key quantitative findings such as the prevalence rates or the most significant determinants. Then briefly mention actionable recommendations. However, stick to the total number of words recommended by the journal	
Is the manuscript scientifically, correct? Please write here.	Yes. However, you can consider expanding the discussion to include comparative insights from other regions facing similar challenges if available.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes. But more recent data can be added.	
Is the language/English quality of the article suitable for scholarly communications?	Yes. However, few grammatical errors should be addressed.	
Optional/General comments	Strengthen the conclusion with more explicit recommendations for the policy makers and key stakeholders.	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
