Important Policies Regarding Peer Review

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript is very important for the scientific community as it will evaluate the efficiency of resource utilization to enhance food production within limited resources of Indian farmers.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is ok, but little modification/ addition of evaluation term in the title would be better suited for the manuscript.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract of the article is comprehensive, but there are quite grammar mistakes, like the first sentence should be "A study was conducted to examine the resource use efficiency and resource utilization efficiency of major crops such as wheat, cotton, and castor in Mehsana and Patan districts, as well as more broadly in North Gujarat"	
Is the manuscript scientifically, correct? Please write here.	It is scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are ok.	

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	Language is ok, but grammatical errors need to be corrected.	
Optional/General comments	<ol style="list-style-type: none"> 1. Grammatical errors need to be corrected. 2. Abstract may be little modified to clearly state objectives and findings. 3. Conclusion part may be modified little with numeric results. 4. Authors may use equation editor to write equations for better visualization. 5. A figure/flowchart may be provided for better understanding about the resource efficiency. 	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
