Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_129611
Title of the Manuscript:	Estimates of genetic variability for yield its component trait in Urdbean (<i>Vigna mungo</i> L.) germplasm
Type of the Article	Research article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	It provides a thorough examination of genetic diversity in yield and its constituent features in Urdbean (<i>Vigna mungo</i> L.) germplasm. The study sheds light on the genetic potential of Urdbean breeding programs by determining the level of variability and heritability among these variables. Such discoveries are critical for generating high-yielding and robust cultivars that will help to ensure food security and promote sustainable agriculture. Furthermore, the study is a significant resource for academics working to improve pulse genetics, so contributing to the worldwide effort to address nutritional and agricultural concerns.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	Yes add more citation, and some reference is missing in content as well as, some citation missing in reference	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No add more reference 2020-2024	
Is the language/English quality of the article suitable for scholarly communications?	yes
