PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Because it examines the correlation between ultrasound measurements of liver length throughout pregnancy and different demographic characteristics, this manuscript is extremely valuable to the research community. In order to establish normative data for liver size—which is essential for detecting possible liver problems in pregnant women—it can be helpful to comprehend these associations. Furthermore, by taking into consideration demographic differences, enhancing diagnostic precision, and promoting improved maternal-fetal outcomes, this research can provide tailored treatment.
