**PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is interesting and will contribute to the scientific community, especially in the Indian context. However, to widen the contribution of this research, the author needs to add more citations from recent international studies.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>No.</b> The author needs to reconsider which term to emphasize and use. Overuse or addiction? If the intent is that overuse causes addiction, then the title needs to be revised. Furthermore, the author needs to explain and add more support about smartphone overuse that causes addiction. See the comment in the abstract section.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	See the comment in the abstract section.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	At this stage, it is not 100 percent scientifically correct because it still needs to be sharpened, revised, and supplemented with the latest references.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	There are many recent references that the author can get and use for this writing. It can be searched through Google Scholar by typing the keywords smartphone addiction or smartphone overuse.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	It would be wise to have this article proofread, particularly for wording, article usage, punctuation, and more fluid language. Moreover, the author should double-check and correct some citations following APA guidelines.	
<b>Optional/General</b> comments	This article is more like an annotated bibliography or a report containing a collection of research results rather than a review. The author needs to add critical thoughts because of reading and concluding the body of research reviewed. Additionally, some parts of the manuscript are still fragmented. The author needs to use and add appropriate conjunctions or sentences to link each paragraph or subheading.	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
