Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The Manuscript entitled "Bio-efficacy studies of Unique in relation to growth, yield and shelf life of Super Sonaka grape variety under Sangli location of Maharashtra" describes the impact of the use of bio-stimulants on the production of grapes. Because of climatic stress plants are facing huge metabolic imbalance inside the system, which directly impact the yield of the plant. Hence, it is necessary to use some bio-stimulants to minimize the stresses raised in the plant system and to enhance the plant performance in terms of yield. The present study is scientifically sound and I found least mistake in the text and I should appreciate the authors for their sincere efforts to prepare the manuscript. Still I suggested few changes in the text.
