

### Review Form 3

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_129868
Title of the Manuscript:	Assessment of Integrated Crop Management for Enhancing Mango Yield through Front Line demonstrations in Sangareddy District, Telangana.
Type of the Article	

#### **PART 1: Comments**

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The experiment is very important, as the technology tested will increase the yield of farmers. Also, there will be increase in general food production and possibly lead to reduction in price of the commodity. There is also increase in profit for farmers as a result of the technology	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The author need to confirm again all the percentages quoted in this section as a result of the technology used.	
Is the manuscript scientifically, correct? Please write here.	Yes, but the author needs to improve on the materials and methods by supplying more details	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are recent enough	

**Review Form 3**

<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes, but can be improved	
<b>Optional/General</b> comments	<p style="text-align: center;"><b>REVIEW: Assessment of Integrated Crop Management for Enhancing Mango Yield through Front Line demonstrations in Sangareddy District, Telangana.</b></p> <p><b>INTRODUCTION</b></p> <ul style="list-style-type: none"><li>➤ 13.86 thousand ha should be changed to 13,860 ha</li><li>➤ 34.26 thousand acres should be changed to 34,260 acres etc</li><li>➤ The three objectives of the study should be put together in a sentence or two, kindly avoid numbering and repetition of the word 'to'.</li><li>➤ The full meaning of FLD should be described in the first instance.</li></ul> <p><b>MATERIALS AND METHODS</b></p> <ul style="list-style-type: none"><li>➤ State the full meaning of DAATT</li><li>➤ State the full meaning of SKLTHU</li><li>➤ The statistical methods or tools used should be mentioned</li><li>➤ The materials and methods section should be more elaborate</li></ul> <p><b>RESULTS AND DISCUSSION</b></p> <ul style="list-style-type: none"><li>➤ Do you analyse the means presented in Table 2, if yes, please provide the statistical tool used and means of separation</li><li>➤ The authors might need to re check the value quoted for technological yield in Table 2 as well as the percentage gap</li><li>➤ Figures in the tables can be in one decimal place for consistency</li><li>➤ Table 4 and the write up need to be checked again. The author quoted 33.3 as percent increase in the table, which is wrong. Kindly check again.</li><li>➤ The author stated that mango is sold for ₹2880 per quintal. Author should therefore recalculate the gross return as the figures quoted there is not correct, and this will affect both the Net ratio and the B:C ratio</li><li>➤ The author should include conclusion section.</li></ul>
