### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	<b>The Importance of the Manuscript</b> <ol style="list-style-type: none"> <li>1. Important to determine psychological treatment.</li> <li>2. To determine the types of therapy for adolescents.</li> <li>3. To establish rehabilitation program types.</li> <li>4. For rehabilitation programs targeting adolescents</li> </ol>	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	Drug and Substance Abuse in Relation to Behavioral Disorders Among Adolescents in Shikusa Borstal Institution, Kakamega, Kenya.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	According to the background and objectives, the benefits of the study are explained. The data analysis methods cover the population, sample, sampling techniques, measurement tools used, as well as qualitative and quantitative data analysis methods. Furthermore, the results and recommendations of the study will be presented. Maximum word count: 300 words.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	<input type="checkbox"/> The issues being discussed, structured in a coherent manner. <input type="checkbox"/> Reasons why this research is necessary. <input type="checkbox"/> Explanation of why, in the author's view, journal readers would be interested in this study. <input type="checkbox"/> Clear significance of the results. <input type="checkbox"/> Discussion on substance abuse that remains aligned with the context of ADHD.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	The references provided are insufficient. It is recommended to include more recent references, especially from 2023 and 2024, that address drug abuse and adolescent-related topics. This will enhance the validity and relevance of the research.	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The quality of English is appropriate and suitable. However, the layout of the writing could be improved to be more structured, neat, and visually appealing, enhancing the manuscript's overall professionalism	
<b>Optional/General</b> comments
