

Review Form 3

Journal Name:	Asian Journal of Research in Computer Science
Manuscript Number:	Ms_AJRCOS_130099
Title of the Manuscript:	AI-Driven Open Source Intelligence in Cyber Defense: A Double-Edged Sword for National Security
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study addresses the dual implications of AI in Open Source Intelligence (OSINT), offering critical insights into a rapidly evolving field pivotal to national and cybersecurity. The manuscript proposes a framework for ethical and effective deployment of AI in OSINT, bridging the gap between innovation and governance. Thus, serves as a guide for policymakers and organizations aiming to harness AI's potential responsibly	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article, "AI-Driven Open Source Intelligence in Cyber Defense: A Double-Edged Sword for National Security," is suitable as it encapsulates the core focus of the manuscript.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract of the article provides a solid overview of the study's focus. However, to enhance its comprehensiveness and clarity, a few suggestions could be considered: 1. Explicit Objectives: Include a clear statement of the study's primary goals, such as evaluating the benefits, risks, and ethical implications of AI in OSINT. 2. Methodology Highlights: Briefly mention the key methods or frameworks employed in the research to provide context for the findings.	
Is the manuscript scientifically, correct? Please write here.	Based on the provided manuscript, the scientific foundation appears robust, with sound methodologies and well-reasoned arguments. Author should confirm that the datasets used are well-documented and represent a wide range of scenarios for generalizability.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references in the manuscript appear relevant to the subject matter,	
Is the language/English quality of the article suitable for scholarly communications?	1) Review for minor grammatical errors, awkward phrasing, or typos that may distract the reader. Example : Original: "Such systems provides a double-edged sword in national security applications." Improved: "Such systems provide a double-edged sword for national security applications." 2) Consistency in Terminology: If the manuscript alternates between "AI-driven OSINT" and "AI-based OSINT," choose one term (e.g., "AI-driven OSINT") and use it consistently throughout.	
Optional/General comments	NA	

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
