

Review Form 3

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_129909
Title of the Manuscript:	Prevalence and Antibiotic Resistance Patterns of Multidrug-Resistant Pseudomonas aeruginosa in Clinical Specimens from Khartoum Hospitals, Sudan
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Important Policies Regarding Peer Review

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is of public health impact as it borders on nosocomial infection, Antimicrobial Resistance and multi drug resistant pathogens. This is a critical challenge to modern medicine, Knowledge of this reduces healthcare related infections This manuscript talks about the mechanisms with which Pseudomonas aeruginosa acquires resistance and its ability to survive diverse conditions. This is particularly important as these mechanisms serves as the pathway to developing novel antibiotics and therapeutic approaches to fight infections Understanding the essence of Antimicrobial stewardship shapes the future of healthcare through enactment of healthcare policies that are beneficial	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title captures the essence of the article	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes, But keywords should be included at the end of the abstract	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Outdated reference of 1989 and 1966 should be removed Ensure that reference are properly date and formatted according to the journal's standards	

Review Form 3

Is the language/English quality of the article suitable for scholarly communications?	Yes, grammatical accuracy is observed	
Optional/General comments	future suggestions on how to prevent and fight against Multidrug-resistant <i>Pseudomonas aeruginosa</i> should be included directly before the references 7-8 keywords should be added after the abstract References are not properly formatted	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
