Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The role of quality mulberry leaf is of prime importance as it has around 38.2% role for the success of sericulture activity. In order to harvest good cocoon crop, the silkworm larvae must be fed on superior mulberry genotypes having better nutrient content in leaves. New productive varieties/ genotypes should be developed in future so that the farmers overall income will be enhanced.
