Optional/General comments	<ol style="list-style-type: none"> Why is there a need to compare data from both countries? Which country represent the lack of availability or accessibility of primary healthcare services? The effect of availability and accessibility of primary healthcare in this manuscript is only mentioned of in the discussion and judged by the results of presentations to the ED for reasons that could be diverted to non-emergency centers. This statement is only one off and not being studied in this manuscript thus the objective of this study is not achieved. Similarly, there is no mention on “the effect of availability and accessibility of primary health care services on these factors” in the conclusion section. 	

Review Form 3
