Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The study provides critical insights into the use of plant growth regulators (PGRs) and growth media to enhance the germination rate and seedling vigor of papaya (<i>Carica papaya L.</i>). These findings can directly contribute to improving the efficiency and productivity of papaya cultivation. By investigating the role of soilless media like cocopeat and vermiculite, the research emphasizes sustainable cultivation methods, which are particularly relevant in regions with poor soil quality.
