Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Mango is an important commercial crop of India with good export potential as well as fetching good returns for the farmers. Hence it is very important to increase the productivity of mango. In this view, the topic has present utility	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Is the manuscript scientifically, correct? Please write here.	While writing the results , it is necessary to give the frequency and percentage of the respondents. There is no mention of major 1 and 2 groups in methodology. It is given in detailed table but again it does not exist in consolidated Table. Hence more clarification about his is needed. The Tables 1 and 2 are too clumsy, it needs more clarity to understand	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient but not aligned and arranged properly	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	<p>If the problems of farmers were included, it would have more clarity in giving recommendations. As the recommendations talk only about extension work but nothing about research</p> <p>It requires little more clarity in Tables as well as writing results</p>
