PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript highlights the potential of underutilized arid and semi-arid fruit crops in Madhya Pradesh, providing a comprehensive review of their cultivation, economic importance, and adaptability to harsh climatic conditions. It offers valuable insights into sustainable agricultural practices, genetic conservation, and value addition, which can significantly benefit the farming community. By addressing challenges and proposing strategies, the manuscript contributes to enhancing agricultural productivity, supporting rural livelihoods, and promoting environmental sustainability. This work is an important resource for researchers, policymakers, and practitioners aiming to optimize the use of arid land resources.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the article is suitable.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive but could be strengthened by adding specific examples of arid region fruits and briefly mentioning policy recommendations or solutions. These changes will provide greater clarity and offer a more rounded overview.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically valid and well-constructed. The information presented aligns with current knowledge and practices in sustainable agriculture. However, providing additional evidence through references and examples could strengthen certain sections.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Overall, the references are appropriate; however, adding newer studies on the global cultivation of arid-region fruits and their application in Madhya Pradesh could enhance the discussion depth.
