Manuscript Number:	Ms_JSRR_130041
Title of the Manuscript:	Optimizing Okra Yield: The Synergistic Effects of Land Configuration, Mulching and Fertilizer Management
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is important for the scientific community as it highlights the combined impact of land configuration, mulching, and fertilizer management on okra yield under rabi conditions. It emphasizes sustainable practices like raised beds with mulch and optimized fertigation using Konkan Annapurna Briquettes, which improve resource efficiency and crop productivity. These findings provide practical solutions for enhancing okra cultivation and can guide farmers and policymakers in adopting sustainable agricultural practices.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title, " <i>Optimizing Okra Yield: The Synergistic Effects of Land Configuration, Mulching and Fertilizer Management</i> ," is appropriate and aligns with the study's scope. No changes are necessary	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is appropriate and comprehensive.	
Is the manuscript scientifically, correct? Please write here.	The study is scientifically correct	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References in the introduction and discussion parts could be improved. The references are generally sufficient; however, I would recommend checking if there are recent studies on "Optimizing Okra Yield: The Synergistic Effects of Land Configuration, Mulching and Fertilizer Management" that could be included, ideally from the last 5-10 years. Ensuring that the manuscript draws on the latest research will enhance its relevance and impact.	
Is the language/English quality of the article suitable for scholarly communications?	The language and English quality of the article are generally suitable for scholarly communications
