| Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part. | It discusses the crucial connection between sustainability and stakeholder engagement in frameworks for the circular economy. It delivers meaningful information that can improve the adoption of sustainable practices in a variety of industries by offering a thorough examination of the ways in which varied stakeholders can work together productively. It recognizing the necessity approaches to address difficult environmental concerns, it adds to the expanding body of work on circular economies. | |
| Is the title of the article suitable? (If not please suggest an alternative title) | The article's title is appropriate since it captures the core ideas of sustainability and stakeholder involvement in circular economy ideas. However, to enhance clarity and specificity, the title could also be: "Enhancing Sustainability through Stakeholder Engagement: Strategies for Effective Circular Economy Practices." | |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here. | It effectively highlights the objectives, key strategies, and potential outcomes associated with stakeholder involvement. However, to enhance clarity and depth, I suggest the following additions: Including a brief mention of specific case studies or examples of organizations that have successfully implemented stakeholder engagement strategies could provide concrete evidence of the benefits discussed. By highlighting how the subject is constantly changing, a statement about the implications for the future or new developments in stakeholder engagement within circular economies could improve the abstract. | |
| Is the manuscript scientifically, correct? Please write here. | The manuscript seems to be sound from a scientific standpoint. It was successfully backed up with recent literature, interdisciplinary perspectives, methodology, citations and references, and pertinent theoretical frameworks. The focus on incentives, teamwork, and communication is consistent with accepted sustainability research ideas. | |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. | There are more than fifty (50) References which are sufficient and majorities of them are recent for the manuscript | |
| Is the language/English quality of the article suitable for scholarly communications? | The manuscript's English and vocabulary are appropriate for academic discourse. The paper is clear cohesive, and uses proper scholarly language pertinent to the subjects of circular economy principles and stakeholder engagement. | |
| Optional/General comments | The manuscript has been edited and is now more substantial for the target audience. However, the author should adjust the KEYWORDS if possible | |
