Type of the Article	Review Article

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The manuscript on the "Impact of Nanotechnology on Post-Harvest Handling and Storage of Horticultural Produce" holds significant relevance for the scientific community as it addresses a critical area in agriculture and food science. With the global demand for fresh produce growing, nanotechnology offers innovative solutions to enhance the shelf life, quality, and safety of horticultural products. By exploring the use of nanoscale materials and techniques, this research could lead to more sustainable and efficient methods of post-harvest handling, reducing food waste and improving food security. Furthermore, it contributes to the ongoing discourse on the application of cutting-edge technologies in agriculture, offering new insights into how nanotechnology can be integrated into existing systems for optimal results.	
Is the title of the article suitable? (If not please suggest an alternative title)	"Advancements in Nanotechnology for Enhancing Post-Harvest Handling and Storage of Horticultural Crops"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Please improve the content of abstract. Add the future prospect of Nanotechnology in Post-Harvest Handling and Storage. Add at least one line regarding objective and conclusion of paper in abstract.	
Is the manuscript scientifically, correct? Please write here.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Add more references in the content of this paper.	
Is the language/English quality of the article suitable for scholarly communications?
