

### Review Form 3

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_128658
Title of the Manuscript:	GROWTH AND YIELD OF SWEET CORN AS INFLUENCED BY NITROGEN FERTILIZATION LEVEL AND CROP GEOMETRY.
Type of the Article	

#### **General guidelines for the Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

<https://r1.reviewerhub.org/general-editorial-policy/>

#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides valuable insights into the combined effects of nitrogen fertilization levels and crop geometry on the growth and yield of sweet corn. Understanding these interactions is crucial for optimizing resource use efficiency, improving productivity and promoting sustainable agricultural practices. The findings can serve as a scientific basis for developing region-specific recommendations that balance crop performance with environmental conservation. Moreover, this study contributes to bridging the knowledge gap regarding sweet corn production under varying agronomic conditions, benefiting researchers, extension workers, and farmers alike.	
Is the title of the article suitable? (If not please suggest an alternative title)	No  GROWTH AND YIELD OF SWEET CORN AS INFLUENCED BY NITROGEN LEVELS AND CROP GEOMETRY.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Suggested to delete the some sentences in the manuscript and reduce the word under 300.	
Is the manuscript scientifically, correct? Please write here.	Manuscript is scientifically correct.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Suggested to add some more references especially in introduction section. Data in the introduction presented with any references.	
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	If possible, try to give future line work to your work  PLEASE SEE ATTACHMENT	

#### PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
