Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript contributes to the growing demand for innovative dairy products by presenting optimized formulations for Greek yoghurt spreads. It is a significant study for both the academic community and the dairy industry.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is suitable and accurately represents the content of the manuscript.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is comprehensive but could include a brief mention of the benefit of the optimized formulations for health-conscious consumers.	
Is the manuscript scientifically, correct? Please write here.	The manuscript is scientifically accurate, with a robust methodology and well-analyzed results.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are recent and sufficient. Additional references are not required.	
Is the language/English quality of the article suitable for scholarly communications?	The language is clear and appropriate for academic purposes.	
Optional/General comments	<p>I have reviewed the manuscript titled "Effect of Butter and Salt on the Sensory Attributes of Greek Yoghurt Spread" (Ms_JABB_129720) and have completed the review form. Please find my feedback below and in the attached review form.</p> <p>The manuscript is scientifically sound, well-structured, and provides valuable insights into the optimization of Greek yoghurt spreads. However, I suggest adding relevant diagrams or images, such as a flowchart of the preparation process, sensory evaluation setup, or even photographs of the samples, to further clarify the methodology and enhance reader satisfaction.</p> <p>Including diagrams, such as a flowchart of the Greek yoghurt spread preparation process, or sensory evaluation setup photos, would improve the clarity and appeal of the manuscript. These visuals can help readers better understand the procedures and results.</p>
