

Review Form 3

Journal Name:	Journal of Experimental Agriculture International
Manuscript Number:	Ms_JEAI_128826
Title of the Manuscript:	Improving maize yield and soil productivity through N management practices in maize-legume Intercropping
Type of the Article	Original article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	The research on "Influence of maize growth and productivity through N management practices in maize-legume intercropping" is crucial for sustainable agriculture. It optimizes nitrogen use, enhances soil fertility and promotes maize productivity by leveraging legume nitrogen fixation. This practice reduces chemical fertilizer dependency, lowering costs and environmental impact. Understanding effective nitrogen management fosters efficient resource utilization, improves crop yields, and supports food security, making it vital for eco-friendly and economically viable farming systems.	
Is the title of the article suitable? (If not please suggest an alternative title)	No Impact/influence of maize growth and productivity through N management practices in maize-legume Intercropping	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Need some more information on materials and methods used in conduct of experimentation And draw a clear output of research	
Is the manuscript scientifically, correct? Please write here.	Good	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Mention the references according to their output in present article introduction and, results and discussion part	
Is the language/English quality of the article suitable for scholarly communications?	Okay but need some technical terminology	
Optional/General comments	In writing results and discussion part, no reference has been mentioned It is looking like draft article	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
