	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	The research topic holds a significant importance for the scientific community due to its multifaceted impact on technology, agriculture, and sustainability.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The paper primarily focuses on reviewing and synthesizing existing research without presenting new or original contributions. To better align with the content, it is suggested that the topic be modified to explicitly reflect the paper's nature as a comprehensive review.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	It is suggested that the author should also include the limitations of previous studies that employed machine learning and deep learning algorithms for fruit sorting and grading.	
<b>Is the manuscript scientifically, correct? Please write here.</b>	The manuscript is scientifically sound.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	<ol style="list-style-type: none"> <li>The author has conducted an extensive review of the literature. However, it is noted that approximately 50% of the references cited are older than five years. Updating the references to include more recent studies would enhance the relevance and timeliness of the review.</li> <li>The in-text citations included the use of the ampersand (&amp;) instead of "and". It is recommended to follow the appropriate citation and referencing style guidelines to ensure consistency and adherence to standard academic conventions.</li> </ol>	
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	The English quality of this manuscript is considered suitable for scholarly communications as it conforms to the standards of clarity and accuracy expected in academic writing.	
<b>Optional/General</b> comments	<ol style="list-style-type: none"> <li>It is suggested that the author should include a thorough discussion of the limitations of the reviewed studies. This analysis should identify gaps, or unresolved challenges within the existing body of work. Highlighting these limitations will provide a clearer rationale for further research and enhance the critical depth of the review</li> <li>The keywords should be arranged alphabetically.</li> </ol>
