

Editor's Comment:

The manuscript on "***Effects of Some Thermal Processing Conditions on the Physiochemical and Moisture Absorption Characteristics of Two Cocoyam (Colocasiaesculenta) Varieties***" is revised in well manner as per the suggestions and comments given by the reviewers. Therefore, I would suggest some corrections before the accepting this manuscript in journal. The suggestions and comments are listed below.

Comments and Suggestions:

1. The title of present study should needed improvement. Author should remove "some" from the title.
2. Authors has cited very old reference (Wang, 1983; Sindhu, 1996; Fennama, 1996; Tagodoe and Nip, 1994; Frankel, 1994; Barakat, 1993) throughout the whole manuscript. I suggest authors to replace these references with newer one.
3. The significance letters (a, b, c.....n) should be indicating after standard deviation (SD) of the values in all tables.
4. The results of proximate compositions and anti-nutritional should be express parameter wise to better understanding the results.
5. Check typo error in heading of section 3.3 and it could be writre like" Anti-nutritional contents".
6. Check significance ($p=.05$) values in section 3.3 (first paragraph)
7. Check and improve the last paragraph of section 3.3. Porosity is the reverse of bulk density?
8. Check and improve language of the last paragraph in section 3.5. Do not start the paragraph with "It was observed".
9. Authors need to verify all the cited references or listed references below are same or not.
