

### **Editor's Comment:**

The authors must address the following comments prior to publication accepting. This is crucial to maintain the high quality standard of this Journal:

1. Most keywords duplicate the same as in the paper title. Other selections should be re-chosen.
2. All acronym names must be defined when first appear and be used thereafter.
3. All equations must be numbered with the same simple system such as "(1), (2)".
4. Must check on the accuracy of equations (1.1), (1). Is "bt" supposed to be "b<sup>b</sup>"? Is "b" in equation (1.3) the same as equations (1.1) and (1.2)? Is "E<sub>it</sub>" supposed to be "E<sub>it</sub>"?
5. Equation for P<sub>ii</sub> (matrix properties is not complete.
6. For (c\*r) matrix, what is "c"?
7. It is nothing wrong with using "%". But, please do unify the use of "%", "present" and "per cent".
8. The correct form is "et al.", not "et al,".
9. Tables 2-5 have not been referred to in the text.
10. Many spacing and English language errors have been detected.
