

Editor's Comment:

The authors have addressed most of the comments and suggestions provided by the reviewers. However, there are a few more corrections suggested **prior to publication acceptance**:

1. Add "India" to the paper title.
2. Duplicated keywords (same as the paper title) should be re-chosen. Besides, each keyword may consist of more than one word.
3. Spelling error "countires".
4. The only figure must have a caption with a number, eg. "(Figure 1)". Besides, this figure seems to display the same data as in Table 4. To save space and the patience of the readers, choose either to show the table (Table 4) or the figure. In fact, Table 4 or the figure has not been referred to in the text.
5. Use "and" instead of "&" in the reference list.
6. For reference no. 2, the title of the authors "Dr." is not that necessary.
7. Use initials for all the authors first names in the reference listing.
