

Editor's Comment:

This manuscript focuses on a subject and the authors did not present any motivation to determine and study a modification of this distribution.

In addition, the article has a number of problems, such as:

- Many spelling and syntactic errors,
- Text unclear,
- Neither identification nor subtitling of tables,
- No numbering of formulas,
- Citation of references without their numbering.

Therefore, this article cannot be published in AJPAS and should therefore be rejected.
