

Editor's Comment:

My reviews about "Manuscript Title: **Linear Estimation in the Type II Generalized Logistic Distribution Under Progressive Censoring** 2022/AJPAS/86540"
in the below:

- Authors have given simulation results in Tables 1-6. But, there are no comments at the end of tables. It needs comments considering simulation design.
- There are some typing errors, I highlighted them in the paper, and they need to be fixed.

After these corrections are made, **then it can be published.**
