

**Editor's Comment:**

The subject of the manuscript is of practical interest and the manuscript is informative in this respect.

Besides, part only of the reviewers' suggestions have been accounted for. Yet, in my opinion, it is the more relevant suggestions that, in fact, have been duly selected and considered by the authors.

Just a point, however, the ethical statement is still missing and should be added.

After that, I consider that the manuscript, in its presently revised form, now deserves being published in AJRAV.
