

Editor's Comment:

Minor revision.

1) Homogenize tables 1, 2, 3 and 4, in tables 1 and 2 commas are used to designate decimals and in tables 3 and 4 points are used. Also, in the text commas and points are used in the same paragraph (see page 6), homogenize with points throughout the text, as well as in tables.

2) The first table 4 must be table 3, there are two tables with the number 4.

Accepted after authors make corrections.
