

**Editor's Comment:**

Manuscript Title: **Stark widths and shifts of Rh II in Chemically Peculiar Stars.**

According to the reviewers' reports and authors' reply it seems that this manuscript has been revised. Since it is stated in the introduction that there is no data available for comparison, this seems to be the first work of its kind and has many applications as given in the conclusion, **it may be published with the following structural modifications to maintain the journal standard.**

1) Ref [4] must be complete. [Moore, M. G. J. Minnaert, and J. Houtgast, "The Solar Spectrum 2935 Å–8770 Å", NBS Monograph No. 61 (1966), U. S. Govt.].

2) Acknowledge must be before Reference not in between Figures.
