

**Editor's Comment:**

We've read your article, "Effect of Different Varieties, Nitrogen Levels, and Cutting Management on Growth and Yield of Fodder Bajra (*Pennisetum glaucum* L.)." The changes you made to the text are highly successful in resolving the outstanding issues.

Your original research article, "Effect of Different Varieties, Nitrogen Levels, and Cutting Management on Growth and Yield of Fodder Bajra (*Pennisetum glaucum* L.), has received evaluations.

Now the moment has come for us to decide. Based on the reviewers' comments and our own interpretation of the text, **we have decided to approve the research for publication in the International Journal of Environment and Climate Change. Please take this letter as official confirmation of our approval of your submission. I am grateful to you for your patience as we went through the evaluation process.**
