

Editor's Comment:

The revised manuscript is fit to be published. However, the following comments need to be addressed:

1. Some keywords duplicate the same as in the paper title. Other selections should be re-chosen. Besides, cowpea is not an appropriate selection since this is not the key study item.
2. Sub-heading levels are very confusing, some use numbering, some use capitalization. Please distinguish clearly using one system only.
3. Table 1 seems to be missing.
4. Please define "CD" used in the tables.
5. The reference listing must be alphabetically arranged.
6. A thorough proof-check is highly recommended.
